The college offers 7 UG, 6 M.Tech, MCA and MBA Programmes with 9 Research Centers having 50 Research Scholars and ten Ph.D awardees.

DEPARTMENT OF CIVIL ENGINEERING

Located in a serene pollution free 52 acres Campus in the vicinity of Bannerghatta National Park is focused on delivering education experience equipping for the life and career. The professional bodies of national repute viz., Indian Concrete Institute ICI, Association of Consulting Civil Engineers India - ACCE- (I) & Indian Green Building Council - IGBC have started the Student Chapters, Student Mentor Programme (SMP) leading to internships and possible job opportunities in Civil Engineering on the anvil.

OBJECTIVES OF THE WORKSHOP

Hazardous materials are getting accumulated in every industry causing enormous problems in their proper disposal. It is needless to say that the air we breathe, water we drink, the soil we use for growing food are getting contaminated with toxic materials in alarming proportions. This workshop provides an opportunity to bring together academic people from the University Science and Engineering departments and the personnel from industries on the same platform to interact with experts from USA and learn about the latest methods in mitigating pollution caused by toxic materials. The three-days training course will also help the research faculty in the University to keep abreast with the latest technologies in the field of HMM. The knowledge gained will also help in their research methodologies and in the teaching quality.
